Read All Instructions Before You Paint or Install This Product

Failure to do any of the following will void your warranty!

- **Compare that all part numbers you ordered match the part numbers engraved in the back edge of all parts**
- **Check all parts for shipping damage or manufacturing defects prior to painting or installing**
- **Identify driver and passenger boards (see label on the back edge of the board)**
- **Fit all parts against the vehicle for proper fit prior to painting or installing**

Parts which have been defaced may not be returned!

Defacement will include – but is not limited to – cut, sanded, painted or installed

How to Prepare “Paintable” Parts for Painting

Aero-Tec’s “Paintable” parts are easily designated with “ZZ” at the end of the part number

“Paintable” parts come in standard sandable primer-color gray gel-coat and require only normal preparation of primer and painting
